My life

Couplet

I'm gonna get out of my shell
Try without anybody's help
To

loose this heavy load
get my life back on the road
I've seen the worst when I was down
Only

lone-li-ness I found
Now I'm climbing to the top
And I ain't never gonna stop
And I'll

Bridge

carry on, though the road is long
I'm gonna get myself toge-ther
Yeah
And I'll hold on, 'cause I am strong
I'm Gonna

try to make it better, baby
The rest of my life I'll take these chances

Time goes by so very fast
I'll share my fortune

fear and failure 'til there's nothing left

F C Gm Bb
And if somewhere down the line
I'll find I'm running out of time
I hope to God that I can say
I made the best of every day

'til then I'll carry on, 'though the road is long
I'm gonna get myself together,
And I'll hold on, 'cause I am strong
I'm gonna try to make it better, baby

The rest of my life I'll take these chances
Time goes by so very fast
I'll share my fortune and my failure
'til there's nothing left
